

**Accreditation assessment checklist**

General Information		
i	Date (D/M/Y)	...../...../.....
ii	Clinic Venue: PHC/CHC/DH/Any Other (Specify)	
iii	Name of the block, district and state	
iv	Name and designation of observer	

		Yes/No	Comments	Suggestions/Recommendation
<b>A. Equipment and Supplies</b>				
<b>Pathology test equipments</b>				
1	Haemoglobinometer and accessories			
2	Apparatus to estimate albumin and sugar in urine			
3	Reagents			
<b>Sterilization equipments</b>				
4	Autoclave			
5	Boiler			
6	Surgical drums			
7	SS Tray			
8	Glutaraldehyde solution 2%/ Paracetic acid			
9	Needle destroyer			
10	Utility Gloves			
<b>Sterilization kits</b>				
Additional for Female Sterilization:				
11	Minilaparotomy kit			
12	Laparoscopy kit			
Additional for Male Sterilization:				
13	Conventional vasectomy kit			
14	No-Scalpel vasectomy kit			
<b>B. Emergency Equipment and Supplies</b>				
15	Stethoscope			
16	Blood pressure instrument			
17	Weighing scale			
18	Instrument for pelvic examination			
19	Oral airways guedel size 3, 4, 5			
20	Nasopharyngeal airways size 6, 6.5, 7.0			
21	Suction machine with tubing and two straps			

## Annexure – 4 (Total 3 pages)

		Yes/No	Comments	Suggestions/Recommendation
22	Ambubag with mask size 3, 4, 5			
23	Tubing and oxygen nipple			
24	Oxygen cylinder with reducing valve and flowmetre and ranch for opening			
25	Blanket			
26	Gauze pieces			
27	Kidney tray			
28	Torch			
29	Syringes and needles, including butterfly sets, IV cannula			
30	Intravenous infusion sets and fluids			
31	Endotracheal tube size 6, 6.5 , 7, 7.5, 8.0			
32	Laryngeal mask airway size 3, 4, 5			
33	Combitube			
34	Cricothyroidectomy set			
35	Sterile laparotomy instruments (Additional requirement for female sterilization)			
<b>C. Essential Drugs</b>				
36	Injection Adrenaline			
37	Injection Midazolam			
38	Injection Atropine			
39	Injection Diazepam			
40	Injection Deriphylline			
41	Injection Physostigmine			
42	Injection Xylocaine			
43	Injection Hydrocortisone (Dexamethasone)			
44	Injection Pheniramine Maleate			
45	Injection Promethazine			
46	Injection Pentazocine			
47	Injection Ranitidine			
48	Injection Metoclopramide			
49	Injection Calcium Gluconate/Calcium Chloride			
50	Injection Sodium Bicarbonate (7.5%)			
51	Injection Dopamine			
52	Injection Mephenteramine			
53	Injection Frusemide			
54	Injection Methergine (Additional for female Sterilization)			
55	Injection Oxytocin (Additional for Female Sterilization)			

**Annexure – 4 (Total 3 pages)**

		Yes/No	Comments	Suggestions/Recommendation
56	Water-soluble jelly			
57	Electrode jelly			
58	IV fluids : 5% Dextrose, 0.9% sodium chloride (normal saline)			
59	Ringer lactate			
60	Plasma Expanders			
61	Glucose 25%			
62	Heta Starch (HES 6%) (Additional for Male Sterilization)			
<b>D. Human Resources</b>				
63	Availability of all staff as per The list provided during application			
64	Are the various categories of staff adequate for the activities of the centre?			
<b>E. Infection Prevention</b>				
65	Are the autoclave and instrument boiler functional?			
66	Are needle destroyers available?			
67	Utility gloves in use for cleaning floor, instruments and linen?
